PHILOSOPHY

Founded in 2001, Ilfari® are conversational pieces in lighting, developed by combining European high-end materials with eccentric design.

The Ilfari collection was created through various sources of inspiration from different designers and the result is contemporary, unique luxury lighting. Our lighting is highly progressive and eclectic, providing an artistic look with great beauty and simplicity. At Ilfari, our creations are entirely handmade and manufactured in Western Europe using the highest quality metal and glass, complemented with crystals from Swarovski, ensuring razor sharp attention to detail.

The aim is to offer people worldwide the opportunity to create a unique and inspiring space, making use of the collection and custom build lighting from Ilfari. Everyone has the opportunity to use his or her creativity to give an interior its own character, with Ilfari being the preferred partner for architects and designers in the high-end interior design industry.

In this catalogue, you will find inspirational lighting ideas that will totally transform your own interior design with our fascinating collection. At Ilfari, we love a challenge and enjoy creating new designs developed in close collaboration with architects or interior designers so please do ask if there is a different design you would like to see. We can adapt the collection dependent on your lighting requirements to various sizes and colours with the high-quality materials you can expect from us. A strong customer commitment is our base for creating stunning projects together.

Be inspired. Extraordinary lighting for fascinating people.

On behalf of team Ilfari,

Kind regards,

Frank Hendriks
